

Ceiling Speakers

ARCHITECTURAL AUDIO

SOUND THAT BELONGS IN THE ROOM.

Low-profile loudspeakers that distribute natural, intelligible sound without interrupting the interior.

- Wide, uniform dispersion for fewer coverage gaps
- Low-profile backcan and tool-free mounting system
- Selectable low-impedance and 70/100 V operation

Performance targets for project planning - final production data subject to validation

MODEL RANGE

MODEL	LF DRIVER	AES POWER	FREQUENCY RANGE	SENSITIVITY	COVERAGE	OPERATION	CUTOUT
AC-C4	4 in	40 W	85 Hz-20 kHz	87 dB	120 deg conical	16 ohm / 70-100 V	170 mm
AC-C6	6.5 in	60 W	65 Hz-20 kHz	89 dB	110 deg conical	16 ohm / 70-100 V	228 mm
AC-C8	8 in	100 W	52 Hz-20 kHz	91 dB	100 deg conical	8 ohm / 70-100 V	282 mm

TYPICAL APPLICATIONS

Corporate / Education / Hospitality / Restaurants / Retail
